Rates & Procedures – Photography

Stock Photography:

Click the “Start Photo Search Here” button, and you’ll link to our stock photo catalogue search function. If you don’t find exactly what you’re looking for, please call or email your request. We’ll do a traditional search and email more samples to you for your review. Our photo library is comprised of more than what is currently available online. We’re continually updating the catalogue with more great images.

All photography is protected by federal and international copyright law and owned solely by its creator, the photographer, and/or Charlton Photos, Inc. We are a rights protected agency only. We do not represent any royalty free photography. All unauthorized reproduction of any kind is a copyright infringement violation and will be vigorously pursued.

Licensing fees are determined by how the image is used. Contact us for a quote.

Commercial Photography:

Need a shooter? Jim Charlton has specialized in location work his entire career. You can rely on his experience in any environment. Digital capture is available. Rates do vary. Call with the details of your project today!
