Rates & Procedures – Video

Stock Video:

Footage is priced by the second of on-screen time. Custom preview reels and media preparation fees are charged by the hour in addition to on-screen video fees. Licensing agreements are on a per project bases. Please call for more information.

Video Production:

Location or in-studio, we'll quote a day rate based on the number of crewmembers, format, and equipment required. Our personnel are highly talented craftspeople in their individual areas of expertise resulting in a smooth and productive shoot. Please call for more information.

Highlight Reels:

We're excited to be providing this new service. The idea was developed during production of a short program for my daughter to send to college track coaches. This service, however, is not restricted to high school sports activities. We'll help you with any project you would like preserved on DVD. We can shoot new material or work with existing video & photographs. Other projects ideas include music or dance recitals and graduation party programs. The list is endless. And, how great would it be to have an interview style conversation with a parent or grandparent recalling their lives? If you can think of it, we can make it a "highlight".
